

A Motion from the Tenure, Promotion, and Grievance Committee

The Tenure, Promotion, & Grievance Committee, on behalf of the Faculty Senate, moves that the following motion be adopted:

The Faculty Senate recommends that each academic unit reexamine their policy statements on service and advising as they relate to promotion, tenure, appointment, and/or reward decisions. The Faculty Senate further recommend that such policies state clearly and concisely whether service and advising activities count toward these decisions and, if yes, state the nature of expectations in these two areas and how much weight is given to these criteria, respectively.
