

Resolved, the size of the Animal Care and Use Committee shall be increased by 2 faculty members.

Rationale:

1. To ensure the required quorum will always be met when meetings are called as dictated by the federal guidelines governing the Animal Care and Use Committee
2. To assure the chair of the committee and all other faculty members on the committee that workload will be manageable so that proposals are reviewed in a timely manner
3. To provide a committee that is composed of a majority of faculty members
