

## Resolution to Reaffirm Faculty Oversight of the TCU Curriculum

Whereas both the TCU administration and the TCU faculty are unconditionally committed to providing our students with the best possible, highest quality educational experiences, and

Whereas the TCU faculty seeks to collaborate closely with the TCU administration to respond expeditiously and efficiently to both student and programmatic needs, and

Whereas the TCU faculty have considerable experience with, and expertise in, pedagogical and curricular issues, and

Whereas the TCU faculty, through the TCU Faculty Senate and the University, Undergraduate, and Graduate Council Committees, have responsibility over the management of the TCU curriculum, and

Whereas the TCU administration has responsibility for the overall management of TCU's overall health and welfare, and

Whereas recent curricular changes resulted in miscommunication and confusion between the TCU administration and the TCU Faculty Senate;

Therefore, be it resolved, that the TCU Faculty Senate reaffirms its supervisory capacity over the curriculum, and that, to forego further miscommunications and confusions over the curriculum, the TCU Faculty Senate seeks a prompt and mutually beneficial dialogue and collaboration with the TCU administration whenever curricular issues arise.
